

# Talbot County Transportation Planning Study/ Thoroughfare Plan

2006

Prepared for the  
**Talbot County Council**  
Talbot County Government Complex  
142 North Harrison Street  
Easton, MD 21602

## TALBOT COUNTY TRANSPORTATION PLANNING STUDY/ THOROUGHFARE PLAN

<u>Table of Contents</u>	<u>Page</u>
Executive Summary .....	vii
A. Introduction and Background .....	1
1. Introduction .....	2
2. Overview of Current Talbot County Conditions .....	2
3. Talbot County Comprehensive Plan Policies .....	4
4. Easton Comprehensive Plan Policies .....	5
5. Planning Study Philosophy and Approach.....	6
a. Existing Conditions.....	6
b. Future Conditions.....	8
B. Data Sources .....	9
1. Introduction .....	10
2. Traffic Data Sources .....	10
a. Turning Movement Counts .....	10
b. Design Period Justification .....	10
c. Forecasting Data .....	11
d. Signal Timing .....	11
e. Accident data.....	12
3. System Inventory .....	12
a. State Roadway System .....	12
b. County Roadway System.....	12
C. Quantifying Design Year Volumes (2015 and 2030) .....	14
1. Introduction .....	15
2. Travel Forecasting .....	16
a. Network Development.....	17
i Transportation Analysis Zones.....	17
ii Roadway Network.....	17
iii Centroids.....	17
iv Centroid Connectors .....	17
v External Stations .....	20
b. Trip Generation.....	22
i Demographic and Economic Data .....	22
ii Determining Internal and External Trips .....	27
iii Determining Pass-Through Trips .....	29
c. Trip Distribution.....	32
d. Traffic Assignment and Link Volumes.....	32
e. Post Processing .....	32

f.	Turning Movements .....	34
D.	Capacity and Operational Analyses .....	35
1.	Level of Service .....	36
a.	Introduction.....	36
b.	Mitigation Recommendations.....	36
c.	Intersection Level of Service .....	37
i	Highway Capacity Manual Technique .....	37
ii	Critical Lane Analysis Technique .....	38
d.	Roadway Link/ Corridor Level of Service .....	38
2.	Intersections .....	39
a.	Existing Conditions .....	39
i	Intersection Conditions .....	39
ii	Volumes .....	39
iii	Level of Service .....	40
iv	Existing Volume Signal Warrant Analysis .....	43
v	Existing Conditions Needs Evaluation.....	44
b.	Future Conditions – Short Term (2015) and Long Term (2030) .....	48
i	Volumes .....	48
ii	Level of Service.....	49
iii	Future Volume Signal Warrant Analysis .....	53
iv	Future Roundabout Analysis .....	54
v	Short Term (2015) and Long Term (2030) Needs Evaluation.....	54
vi	Town of Trappe .....	64
vii	Commercial Development .....	64
3.	Corridors .....	65
a.	Existing Conditions .....	65
i	Roadway Conditions.....	65
ii	Volumes .....	65
iii	Level of Service .....	67
iv	Existing Conditions Needs Evaluation.....	69
b.	Future Conditions – Short Term (2015) and Long Term (2030) .....	70
i	Volumes .....	70
ii	Level of Service.....	72
iii	Short Term (2015) and Long Term (2030) Needs Evaluation.....	74
E.	Safety Analysis.....	76
1.	Introduction .....	77
2.	Accidents .....	77
3.	Roadway Conditions .....	79
4.	Roadway Standards .....	81
5.	Intersection Safety .....	82
6.	Bicycle Accessibility.....	82
7.	Safety Improvements .....	83
8.	Emergency Vehicles .....	84

9. Evacuation Routes .....	85
F. Conclusion and Recommendations .....	86
1. Conclusion.....	87
a. Current State Highway Initiatives.....	87
b. Current Talbot County Initiatives .....	89
2. Recommendations .....	90
a. Access Management .....	91
b. Travel Demand Management .....	91

<u>List of Tables</u>	<u>Page</u>
Table 1 - Talbot County Land Use - 2000.....	3

## **List of Appendices**

### **A. Base Data**

1. Study Intersection Photographs
2. Study Corridor Photographs
3. Traffic Turning Movement Counts
4. 2002-2004 Accident Data
5. Traffic Signal Timing Data
6. SHA Highway Needs Inventory
7. SHA Consolidated Transportation Program
8. Validation of Existing Turning Movement Count Data

### **B. Engineering Study**

1. Existing and Future Year Critical Lane Analyses
2. Intersection Volume Summary
3. Highway Capacity Intersection Analyses
4. Highway Capacity Corridor Analyses
5. MUTCD Traffic Signal Warrant Summary
6. County Roadway Inventory
7. Conceptual Improvement Critical Lane Analyses
8. Conceptual Improvement Highway Capacity Intersection Analyses
9. Conceptual Improvement Highway Capacity Corridor Analyses
10. Standard Details and Recommended Typical Sections

### **C. Displays**

1. Study Intersections and Corridors
2. Existing Condition Intersection Level of Service
3. Future Conditions 2015 Intersection Level of Service
4. Future Conditions 2030 Intersection Level of Service
5. Existing Conditions Corridor Level of Service
6. Future Conditions 2015 Corridor Level of Service
7. Future Conditions 2030 Corridor Level of Service
8. Existing Intersection & Corridor Improvement Needs
9. Short Term (2015) Intersection & Corridor Improvement Needs
10. Long Term (2030) Intersection & Corridor Improvement Needs
